H. Standard Risk Factors as perceived by Investment Adviser:

1. Investments in equities, derivatives and mutual funds are subject to market risks and there is no assurance or guarantee that the objective of the investment / products will be achieved.
2. The past performance does not indicate its future performance. There is no assurance that past performances will be repeated. Investors are not being offered any guaranteed or indicative returns.
3. As with any investment in securities, the NAV of the portfolio can go up or down depending upon the factors and forces affecting the capital market.
4. The performance of the investments/products may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems in equity and debt markets.
5. Investments in the products which the Clients have opted are subject to wide range of risks which inter alia also include but not limited to economic slowdown, volatility & illiquidity of the stocks, poor corporate performance, economic policies, changes of Government and its policies, acts of God, acts of war, civil disturbance, sovereign action and /or such other acts/ circumstance beyond the control of ORIM Advisors Private Limited or any of its fellow subsidiaries.
6. The names of the products/nature of investments do not in any manner indicate their prospects or returns. The performance in the equity products may be adversely affected by the performance of individual companies, changes in the market place and industry specific and macro-economic factors.
7. Investments in debt instruments and other fixed income securities are subject to default risk, liquidity risk and interest rate risk. Interest rate risk results from changes in demand and supply for money and other macroeconomic factors and creates price changes in the value of the debt instruments. Consequently, the NAV of the portfolio may be subject to the fluctuation.
8. Investments in debt instruments are subject to reinvestment risks as interest rates prevailing on interest amount or maturity due dates may differ from the original coupon of the bond, which might result in the proceeds being invested at a lower rate.
9. The product may invest in non-publicly offered debt securities and unlisted equities. This may expose the investment/product to liquidity risks.
10. Engaging in securities lending is subject to risks related to fluctuations in collateral value / settlement/ liquidity/counter party.
11. The product may use derivatives instruments like index futures, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments. Usage of derivatives will expose portfolio to certain risk inherent to such derivatives.
12. The use of derivative requires a high degree of skill, diligence and expertise. Thus, derivatives are highly leveraged instruments. Small price movement in the underlying security could have a large impact on their value. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
13. The NAV may be affected by changes in settlement periods and transfer procedures.

14. The Investment Advisor may, considering the overall level of risk of the portfolio, advice for investment in lower rated/unrated securities offering higher yield. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
